Brisbane Export Corporation has been supplying Causeway Agency with quality Trace - Mineral Premixes for a number of years. These Trace - Minerals are important because: -

<b>Zinc:</b>	Protein synthesis, disease resistance, keratin production	<b>Selenium:</b>	Male fertility, cellular antioxidant, C.N.S
<b>Manganese:</b>	Bone/tendon growth, TCA cycle, reproduction	<b>Iodine:</b>	Involved in the regulation of metabolic rate.
<b>Copper:</b>	Haemoglobin synthesis, cells electron transport chain	<b>Cobalt:</b>	Essential for DNA synthesis, synthesis of amino acid
<b>Iron:</b>	Prevention of anemia		

To ensure the specifications of these products, Brisbane Export Corporation has implemented the following quality assurance systems: -

- x ISO 9001:
- x HACCP: and
- x GMP.

The management and staff of Brisbane Export Corporation Pty Ltd and K K Animal Nutrition would like to offer our congratulations to Causeway Produce Agency on the commissioning of their new manufacturing plant at Stuart.
